

NO REGRETS

LEADERSHIP COHORTS

Ignite a movement of men
in your church and community.

Most churches today struggle to minister to men in their community because they do not have an intentional process in place. The old paradigm of events, classes, and small groups does not effectively reach men for Jesus or transform their lives and equip them to be godly leaders in their home, workplace and world. Deep down pastors and leaders know this to be true.

We are excited to introduce a new initiative specifically for this need—**No Regrets Leadership Cohorts**. These learning communities bring 8-14 leaders together regionally, to connect and learn over a six-month period. Through bi-monthly gatherings, you will be equipped to implement a reproducible process for developing disciple-making men in your church.

How does a No Regrets Leadership Cohort work?

You will meet once a month for large group teaching and discussion led by men's ministry expert Steve Sonderman. **Steve will take you through six modules on building a life-changing men's ministry.** The other monthly gathering is a small huddle group, allowing you to implement these concepts in real time. Experiential exercises and homework help turn learning into action.
